

## **My Story.**

This is a new avenue for people to express their journey in life and faith. It can be about anything they like or passionate about, including hobbies, interests and stories they hold in their heart.

When expressed, through audio recordings, it should enable new connections to others in the fellowship to flourish by helping listener's better understand each others journey and establishing new common ground with our brothers and sisters in Christ.

Our website is a great resource and this feature rests neatly within it's structure and we intend to run this for a season of time.

## **The process**

'MyStory' are interviews with people in the congregation and those loosely connected with Welton Baptist Church and are about 20 - 30 mins long. It's not intended to be a substitute for the regular Sunday morning live testimonies, which are given at the front on the stage. They are a more relaxed chat, on the style of the 'BBC Desert Island Discs' broadcast's without the discs and Desert Island solitude, with the opportunity to expand on one's life and journey of faith.

The interview normally takes about 1 hour at a location of one's choice. The interviewee has full editorial control during production, and only talks about things they are comfortable with.

And the clever part is in the editing, if you think you are no good at being interviewed, then the final process is in the meticulous editing which produces a polished, seamless and coherent recording, you will sound amazing.

If you haven't already be asked and would like to contribute an interview then please contact me.
